Moses Ojeda, Principal

May 2017

Dear Incoming Edison Students and Parents/Guardians,

Welcome to Thomas A. Edison Career & Technical Education High School. You are about to embark on a rich educational experience that will afford you the opportunity to learn and develop invaluable lifelong skills.

The first step in this process is the June Welcome Orientation, which is mandated for **ALL** incoming students.

Students whose last names begin with M-Z will report on

Saturday, June 17, 2017

***All students and parents/guardians must report promptly at 9:00 AM and the orientation will conclude at approximately 1:00 PM.**

During this orientation, students will meet with staff members to discover how to make a smooth and successful transition into high school. This is a great time to get to know your future classmates, familiarize yourself with the school building, and ask any questions you may have. Students will also have ID card pictures taken. **Effective the first day of school, students are required to have their Edison picture ID with them at all times.**

While students are attending workshops, parents/guardians will be expected to fill out emergency contact information and other necessary forms, as well as attend informational sessions related to the Edison community. Due to limited space, we request that students are accompanied by no more than 2 adults.

We look forward to meeting with you for a meaningful, informative, and exciting day!

All my best for a successful and rewarding educational experience at Thomas A. Edison Career & Technical Education High School.

Sincerely,

Moses Ojeda
Principal
